## Manual for Android Game “Reysoid”

Student ID: 080010830

December 16, 2011

### 1 Introduction

“Reysoid” is a driving game, it can also be considered a racing game although there is only one car on the track.

### 2 Gameplay

Your task in this game is to complete the track in the least amount of time possible. The car should not leave the track or else it will lose speed and it will take you longer to finish the track. Thus, to achieve the best time possible you should always keep the car on the track.

#### 2.1 Controlling the car

- **Accelerate.** Tilt the smartphone forward.
- **Reverse.** Tilt the smartphone backwards.
- **Turn Left.** Press the black circle on the left of the track.
- **Turn Right.** Press the black circle on the right of the track.

#### 2.2 Game Over

When you complete the track, the game is over and you can either play again or exit the game.
